CHARLES A. OWEN MADE PARTNER

Former Marion Boy Successful in Business.

Becomes Junior Member of Prominent Engineering Firm of Johnstown Penn.

Charles A. Owen, son of Mr. and Mrs. W. T. Owen, of east of the city, has been taken into partnership of one of the largest engineering firms in Pennsylvania, according to a clipping received today from the Johnstown Democrat of Johnstown, Pennsylvania. Mr. Owen retains a host of warm friends in this city, who will be pleased to learn of the highly successful climax of his civil and mining engineering career and will read the following extract with interest.

"A new Johnstown engineering firm came into existence a day or two ago, when the business established here nearly twenty years ago by S. G. Fetterman was organized into a partnership concern, composed of Mr. Fetterman, Frank D. Baker, and Charles Owen. The Fetterman Engineering Company, as it is to be called, will shortly move from its present quarters in the old Woolf block to handsome suite of four offices which Charles H. Suppes is preparing in his annex to that building on Lincoln street.

"S. G. Fetterman, the senior member of the new firm, became first known in local engineering circles in 1883, when he associated himself with the late Harry Peeler. When Mr. Peeler died in 1890, Mr. Fetterman took over the entire business, conducting it from offices in the Dilbert building. In 1894, he bought out F. A. Cresswell's business and moved to the Woolf block, where he has since been located.

Mr. Baker has been associated with Mr. Fetterman, first as employee and later on a profit-sharing basis, for about thirteen years. Prior to that he had completed a college course and had several years' experience with Mr. Cresswell. Mr. Owen is an engineer of seven years' experience. He is a native of Marion, O., and joined the Fetterman staff about four years ago, after completing some work for the B. & P. Railroad at Charleroi and Indiana. At the present time the new Fetterman company is borough engineer for ten towns in this county, besides being regularly retained by a number of large coal operators."

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAINS MERCURY.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by Druggists. Price, 75c per bottle. Take Hall's Family Pills for constipation.

Rummage Sale,

Queen Esther Circle, April 4, 5 and 6. Home made baking on Saturday, 6th. It will be held in the Sec. Johnston's room across from the jail.

MISSIONARY SOCIETY

Of First Baptist Church Will Meet Wednesday.

The Missionary Society of the First Baptist Church, will meet in the church parlors Wednesday afternoon at 2:30 o'clock. "Glad and Sad News from India and Burma" will be the topic. The meeting will be opened by song, followed by a session of prayer.

The Scriptural reading will be conducted by Mrs. Richardson, and the roll call will be answered by the name of some missionary in India. A prayer, "The Curse of India" will be read by Mrs. Frank Coe. Letters from Burma will be read by Mrs. H. Groves. A paper "An Eastern Dawn," by Lida Ringer, and "A Lep-er Baptism" by Mrs. Bachelder, will close the program.

Then will follow an enjoyable social hour, and refreshments will be served. All members are requested to attend.

Y. M. C. A. HAPPENINGS

In a mid-March number of the Weekly Electrical Review, a New York publication with 100,000 circulation, there was published a lengthy article describing in detail the Marion electrical plant, and especially commenting upon the electrical department of the Y. M. C. A. night school. The article was fully illustrated, showing several familiar pictures of the electrical classes etc.

A cut of Mr. Frank Glosser, superintendent of the local plant, was printed, and many complimentary remarks concerning his management and accomplishments in an electrical way in this city.

In part the article reads: "Mr. Glosser instructs a semi-weekly class in the evening at the Marion Y. M. C. A. The class is composed of young men and especially shop men. The Marion electric light company furnishes all the material which is used in connection with the lecture and also furnished free all current used for the same purpose."

The cut shown was published in the columns of the magazine and the author commenting said, "The picture shows a complete lighting plant, which has been set up by the students themselves from material furnished by the electric light company. This plant has been taken apart and put together by almost every individual member of the class."

The electrical department is one of the greatest features in the local Association, and Marion people will be interested in the fact that some of the greatest electrical magazines in the country have been inspired to comment upon it.

At a meeting of the Y. M. C. A. bowling committee yesterday, it was decided to hold a grand bowling tournament, which will be the closing bowling event of the season. The tournament will open on next Monday evening with a one man contest; a two and five man tournament will follow. All bowlers wishing to enter must do so at once, as only a limited number will be signed.

A class of fifteen pupils took the examination in electricity given by the International Correspondence School to the Y. M. C. A. night school class last night. Tonight, there will be a class of ten students take an examination in book-keeping.

Inflammatory Rheumatism Cured in 3 Days.

Morton L. Hill, of Lebanon, Ind., says: "My wife had inflammatory Rheumatism in every muscle and joint; her sufferings were terrible and her body and face were swollen almost beyond recognition; had been in bed for six weeks and had eight physicians but received no benefit until she tried the Mystic Cure for Rheumatism. It gave immediate relief and she was able to walk about in three days. I am sure it saved her life." Sold by The Dumble Pharmacy, Opp. Ker House.

It Is The Way We Live.

Some Interesting Opinions of an Expert on the Subject of Rheumatism.

Being the Most Common of all Chronic Diseases, It is at the Same Time Very Easily Prevented and Readily Cured at Home

It will no doubt be a source of much interest to you to learn of the interview recently accorded your correspondent by the student and expert, Dr. George Edmund Flood.

"Most of us," claims this specialist, "eat too much and drink too little water. Water is nature's greatest cleanser, and is more valuable internally than outwardly. It is essential to the health, as in passing through the system, the vital organs are washed of impurities which would otherwise find harmful lodgment; furthermore, the healthy tissues of the body are to a very large degree composed of water. Drink water, lots of water, less tea and coffee, the change will be immediately noticeable in a better appetite, freer action of the kidneys, absence of bowel trouble and an improvement generally in the health."

"Were it possible," says the doctor, "to impress upon the people the importance of this water-drinking habit, rheumatism would in a short time become a rare disease instead of being, as it is now, the most common of all human ailments. At the same time rheumatism and its kindred diseases of the kidneys, and bladder, when properly understood, are not difficult of treatment."

"In my practice I have used the following prescription with great success. You are at liberty to make it public. It is as follows:

Concentrated Barkola Compound, one ounce; Fluid Casarea Aromatic, one-half ounce; Fluid Extract Prickly Ash Bark, one-half drachm; Aromatic Elixir, four ounces. Directions: One teaspoonful after each meal and at bedtime. Children one-quarter to one-half teaspoonful after each meal.

After giving us an opportunity to read it, Dr. Flood continues: "It is very simple. Now any druggist can and will fill that prescription at a very nominal charge. There is nothing to prevent any one from getting it filled or taking it as directed afterwards. I don't believe there is any case of rheumatism so chronic, so severe that, if the sufferer will take this prescription for from four to six weeks, it can't be cured. It is also exceedingly valuable in all forms of kidney and bladder troubles such as Bright's disease, diabetes, cystitis and all other affections of the urinary organs."

CHURCH SOCIETIES HOLD MEETING

Excellent Program is Rendered Last Evening.

Harmonie Societies of Salem's Church Meet in the Deutcher Bund Hall.

One of the most delightful entertainments of the season in church circles was given last night in the Deutcher Bund hall by the Harmonie and Christian Endeavor Societies of Salem's church. The affair was attended by a crowd that taxed the capacity of the hall. The program was opened with a

delightful number, "Shaeffer's Sonntags-Lied," by the Deutcher Bund male chorus. A one act farce comedy entitled, "While Brother Phil Was Walking," was rendered in a very pleasing manner by Misses Marianne Reinicke and Clara Leffler, Fritz Hittenrauch and Jacob Ebert. Miss Katherine Reinicke played a very pleasing piano solo, and Miss Mildred Click was very successful with her recitation, "My Papa." Misses Alma and Olivia Ploch sang a very pretty duet, and the first part of the program was concluded with a piano and violin duet by Miss Clara and Mabel Leffler, the number being rendered with exceptional ability.

Miss Elfriede Ritzhaupt sang "Daddy's Little Girl," in a very pleasing manner, and was followed by Herbert Johnston with a recitation that was well received.

Miss Ethel Leffler and Edith Roberts played an excellent piano duet and Miss Alma Leffler delivered a recitation that made a hit. The last number on the program was an excellent song by the choir of the church.

After the program had been concluded, refreshments were served, and a social time was enjoyed.

SEITER AND CARPENTER.

Continued from Page Eight to report all such to the mayor so that it can be ascertained whether permits have been secured.

In case this is not done arrests will be made. The clerk was authorized to notify the mayor to have the police note all new buildings in the course of construction.

The annual report of City Auditor Samuel T. Quigley, showing that the total expenditures of the city for the past fiscal year amounted to \$407,052.18, was received and approved.

President Rauhauer was the only absentee at the Monday evening session, sickness making it impossible for him to attend.

OFFICIAL BOARD

Of Epworth M. E. Church Met Monday evening.

The regular monthly business meeting of the official board of Epworth M. E. Church was held in the church parlors yesterday evening and considerable business was considered. The committee in charge of allowing the contract for the construction of the proposed church parsonage reported that the contract had been awarded to J. F. Apt and Leffler and Bland and that the work on construction would commence immediately.

Concluding business was hearing the regular monthly reports from the various officers of the board.

THE REXALL STORE

Most people would think that as man is, with very few exceptions, "right-handed," he would be at the same time "right-legged." But this is not the case. Almost every right-handed man uses his left leg more than his right. For instance, most people find it much more natural to go round circles to the right than to the left. That is because they start with the left leg. Being stronger, it is more readily brought into action, and it is on this account that bodies of oldiers always start to march with the left foot. Almost all courses for foot races are made out for running to the right, and dancers will endorse the statement that the majority of movements are far more easily executed in this direction. The left foot is the one that is placed in the stirrup for mounting a horse, and in jumping, it is from the left foot that the athlete "takes off." Thus it will be seen that, as a general rule, "right-handed" people are "left-legged."
